'Self' To God

Miracles

Conclusion

Introduction

Congratulations on getting this book. I wrote this book to consolidate the foundation of God's grace, love, and miracles in my life. I am writing this book to show my journey from a sinner to a righteous person. Inside this book, you will read about my journeys with their exact dates and time, the ups and downs, and how I found my way to God through the love of grace.

For many years, I was a person who didn't care about any religion. Although I come from a religious family, my spiritual grandmother served God for all of her life and protected my family with her connection with God.

I never attended the church that much because I didn't believe in God. Inside this book, you will discover the transformation of being a true believer in God. You will also discover the reality of miracles performed by God to bless my life and show me that He is real and exists.

I hope you find my story delightful and soulful, and you become enlightened because these are real-life sacred miracles that happened in real life and time. I want people who don't know God to have a fundamental basic understanding of God through my life and testimony.

Acknowledgment (Thank You, God)

I dedicate this book to God, Jesus Christ, and the Holy Spirit. I am writing this book to thank God for saving me and for making me serve him. Thank You God.

I honour the glory of your presence and acknowledge your greatness and the love you show to the universe.

I pray this book reaches the right people who want to build a connection with God and gives them the encouragement to take the journey and walk with God.

Thank you so much for your love, God. Thank you so much for blessing me and giving me the will to write this book.

Repentance

I have lived a very sinful life for most of my life, and I have committed the worst crimes and taken wrong actions against people, animals, and the universe. I was always depressed and unhappy because I had lived an unrighteous life for many years. I was very selfish and did things only to help myself and my ego.

I honestly didn't want to live a life like that, but I didn't know what I needed to do to change it or how to forgive myself for the things that I had done. My life has been an eternal struggle from the moment I was born to the present point of me writing this book.

The main thing I understood about my life was that I conflicted with myself, and I didn't know myself at all due to being covered in sins and lies. I never took the time to find the truth and see how my life got enmeshed with conflicts.

The first and most challenging thing I had to say was, "I am a sinner, and I was wrong." I covered up my mistakes and didn't understand how and why I made those mistakes. That is why I believe people are miseducated and lack the knowledge and wisdom to know rights from wrongs and good from the bad.

If I had more knowledge and wisdom when I was younger, I might not have made as many wrong decisions and mistakes in my life.

Repentance in my life

In January 2014, I suffered the first stage of dramatic events and problems. Then I worked in a private university as an Admin Marketing Executive, which was an excellent job with good benefits. I was a devoted worker and gave 100% to ensure students got the best services and experiences.

That was the best job I ever had, and I was very proud of it. But after some time, the University got in trouble, and the whole department became redundant. That led to a dramatic change of circumstances and made me depressed because I knew I would struggle without a job and regular income. So that was how my life went from bad to worst.

After losing my job, I spent much time at home, depressed and feeling useless. I had little motivation to do anything because I was still in shock and had no other options.

That was the beginning of bad events in my personal life with constant struggle. I applied to different jobs to try and get back up and earn a living. After some time, I eventually got a job at the pizza shop. But it didn't last long as the manager that hired me fired me due to poor performance.

In one month, I lost two jobs. One, I became redundant, and the other, I got fired. That

experience crushed me and made me realise my life had to change for the better fast.

I stayed depressed for a few more months, and problems arose in my relationship with my long-term love partner, Bumtzz. This girl was an absolute angel, and I loved everything about her. Everything about her, from her smile to her personality, body, face, and body features, was cute, and she was a fantastic person. I knew if I were going to marry or be with someone to raise a family, it would be her and no one else because she was the love of my life.

Problems started in the relationship due to my behaviour and past mistakes. The problems made us drift apart slowly, even though we never saw it coming. Things were just not the same, and it kept getting worst. After three years, Bumtzz broke up with me because she couldn't deal with my mistakes and the hurt I caused her.

It was completely understandable, but that breakup was a painful and hurtful experience for me, and it changed my life forever. I knew at this point if I didn't change everything about myself for the better, my life would remain the same, and I would keep hurting myself and others. That was the turning point in my life that led me to find God.

I had lost everything, which made me start seeking why and take a good look at myself. I then took the challenge to find and seek truth, the truth of myself, the truth of God, the truth

of life, and the truth of this universe. I took it seriously and focused on it.

I first started studying the Holy Bible teachings and scriptures, but I didn't understand them because I was still in conflict. That made it hard to read the Holy Bible and understand the content.

It was impossible to find the truth I was seeking. I then started studying a spiritual teacher named Jiddu Krishnamurti, who talked about truth and spirituality. The teachings changed my life forever because they helped me understand life on a deeper level and gave me a foundation for where to start my research and soul searching.

There was a video playlist of Jiddu Krishnamurti and Dr Allan called "A Wholly Different Way of Living" that I watched. That playlist changed my whole life and the way I think about things. The videos helped me solve my life problems and completely understand who I am and why I was in conflict.

Understanding that I was in conflict and its dangers led me to seek change in my life. My repentance started from that point. That was 08/09/2014.

That was the beginning of the miracles which was to come.

Repentance & Revolution

I started to act and take my lifestyle change seriously, and I began by thinking of who I am and what influence I had in my hands.

I am a creator, and my side profession was as an independent musician who spread love and peace through sounds and music. I was living off an image I created in my mind for my music career and wanted people to see that. I saw myself as a “Rock star” and showed that image to my worldwide audience.

That became my biggest mistake and failure because it was not who I was. I had to pretend to be something else to fit the image I built and my following of family, friends, and fans that supported me and my movement. It was tough to keep up that image, and I would work many hours in the day and night trying to maintain my image and lifestyle of being some Rock star which I was not.

I knew one day I would have to resolve that. The only way I could have fixed this problem would be to destroy the same thing I created so people could see the truth and see me as completely honest and truthful. I then decided to expose myself and explain myself in a video recording about my whole life. I called those series of videos “Imperfections to Perfections.”

That video presentation was deep, and I explained all of the sins and mistakes I made. I

had an honest emotional breakdown of my past, present, and future. I explained in concepts how I changed from my imperfections into perfections. I had to confess and say I was wrong. That was the process of repentance I went through, and the videos were a personal journey of 'Self' to 'No Self.'

The real secret of life is a human being who fully knows themselves. The only way I can say this is because I went through the process of repentance and progress to the light of God, grace, and love. The repentance was the hardest thing I ever did because I had to completely shatter my past identity to find the truth of God.

It was very spiritually and physically challenging, but something kept me going. At first, I didn't know why I had some weird feelings about my life and myself, but I knew it had something to do with God, so I trusted in the Lord and kept going through my repentance even though it was painful.

As I was going through the process of repentance, things started changing around me in ways I couldn't have imagined. I felt empty, and no more pains, hurt, conflicts, sorrows, and attachment. The more I confessed my sins, the happier and enlightened I became.

When you confess your sins to God, it may feel weird at first, but it is the essential thing that will bring you closer to God.

Repentance was how I was able to write this detailed book, and as we go through the book

of miracles, you will understand why it is crucial to repent. When I created the Repentance videos, I started feeling entirely different spiritually. My life became better, and I gained new followers who supported my music.

That moment was the revolution because I became myself and knew myself wholly.

'Self' To God

After I repented of my sins and confessed to God, and pleaded for forgiveness, something changed in me. I was not sure of the miracles God had planned for me at that point, but I realised that God had a massive plan for me, and it was going to be out of this world.

First, God showed me a vision of who I am. The vision was just me seeing myself in a deep mirror and answering the question I had been waiting for, "I am a creator." I knew this was true because I looked at my life.

Since I was four years old, I have always painted, created art, and drew characters. It was a deep passion of mine, and I would spend many hours creating comic books and drawing art in any way possible. The weird thing about the vision was that it knew that I was a creator for years before I realised it. It was an absolute miracle.

At first, I didn't believe it because it seemed impossible, but as I looked at my life, I realised this is who I am, a creator.

The meaning of creator is someone or something that brings something into existence (reality), and it is also the word people use to refer to God. I also gained extensive insight from it that I understand and use to keep my knowledge and wisdom.

I began to gain an extraordinary ability to use my mind, body, and soul. Those gifts were unique, and only God could have provided special gifts like that for his purpose.

I then started seeing the future before it happened. That was an impossible skill to have as a young person, but going through repentance gave me a new purpose: to serve God in any way possible. It was one of the best miracles I have seen and experienced because it made me believe God exists.

At first, I was baffled because my mind was in a place of space and not time. Time has a limit, and space doesn't have a limit. I gave myself to God, and He granted me the skills to serve Him and do work to better humanity, animals, and the universe.

The best thing about this miracle is that it made me go from 'Self' to God. That is 'No Self' anymore, which means knowing self. In knowing yourself, you find what your purpose in life is because God will show you.

I was able to see the future because it is sacred, and God had a particular purpose for me. Only a few people have this gift to see the future without time or space, and this is a true gift from God.

Here are the dates I went through repentance into revolution:

- ***The Beginning*** - **08/08/2014**
(Repentance)
- ***The End*** - **16/08/2014** **(End of Repentance)**

- ***The Revolution* - 25/08/2014 (Walking With God)**
- ***The work* - 26/08/2014 (God's Work)**
- ***The Miracle* - 28/08/2014 (I saw a Miracle, and God Showed me my life purpose in a clear vision)**

Those dates represented when I transitioned from 'Self' to God. The path I follow now is a pathless land of God which drew me closer to God, and I see more miracles.

Those are the documented dates of the repentance and revolution that took place in my life.

'Self' To God

From Repentance to Revolution

'Self' To 'No Self'

Miracles

When I had my first real vision from God about who I am and my life purpose, it changed my life dramatically. I started feeling completely new, reborn, and fresh. I had true enlightenment in my mind, body, and soul. I could predict things before they happened, and I could be myself wholly, which means feeling everything inside and outside of oneself.

The people I was close with noticed that something had changed about me through my character, personality, and behaviour. I talked about life on a much deeper level and tried sharing the experience with the world. It took a lot of energy trying to show the truth to people.

Once you are with God, everything changes, and you have specific skills and abilities that help you pursue God's plan and your life's purpose.

I started to get much more vision and saw life differently.

On **30/08/2014**, I had a vision from God and saw a clear picture of the Mona Lisa. To this day, I am not sure what this picture had to do with me, but the vision was evident that I am connected to that image somehow.

There has always been great mystery and wonders about the Mona Lisa painting because it is the most famous painting in the world. This

vision of this painting was so clear and detailed, and the Mona Lisa character has a secret purpose which I am not sure what it is.

That vision made me wonder because I had a vision from **28/08/2014** to **30/08/2014**, showing me a female “Holy Spirit” and a special person in life.

On 30/08/2014, before my vision, I had a deep conversation with my brother about life, God, and religion. I also spoke to neighbour who was a friend and a fan of mine. This conversation was intense, and we agreed that we all must find a way to live with our imperfections, and by doing this, we can become perfect.

In both conversations, there was a lot of debate and agreement about what is right and wrong. The main essence of that deep talk was to show the truth in the world.

A serious problem arose after the conversation with my neighbour about the truth. This person couldn't understand the depth of what I was saying about 'No Self' and Knowing Self.' It was a very uncomfortable topic for my neighbour, and he disagreed with me entirely on the issue and subject.

Many people didn't want to know the truth, so they couldn't understand and disagreed with me when I spoke with them.

It's a hard battle to convert unrighteous people to righteous by showing the truth in God's words.

The conversation didn't work with my neighbour because he was unrighteous and selfish, and I was righteous and selfless, and we were the opposite of each other. I knew I had changed spiritually and was no longer in a human mindset of conflicts.

On **01/09/2014**, God showed me another vision to make a detailed album called 'Repent' because I believe God wants people worldwide to repent and give their life to Him. This vision was clear and authentic because I saw images and positions of how the artwork for the album would be and look.

I began producing music and sounds to show my love for God and the vision. The music I created was very mystic as it was an unknown sound, but it had a relaxed unusual vibe of melodies and harmonies never made before. I also had a good chat with the love of my life, Bumtzz, about life and the future.

On **02/09/2014**, I created the first tracks for the 'Repent' album called 'Apologise and Sorry.' They were powerful and soulful sounds I made for God.

I also got signs from God to watch a video about prophecy and the return of God. The main message of that video was repent, revolution, and change. The video was clear about how God will return to the planet and heal the world forever by saving children, men, and women who believe in the Lord and God's grace.

On **03/09/2014**, I started working on the vision album of Repent for God. The deeper I got into the music, the more forceful the sounds and music.

On **06/09/2014**, I was still working on the Repent's album and tried to create the best work for the God musical masterpiece. I had a real-life vision to make videos for God called 'Past, Present, and Future,' explaining the differences between these words.

On **07/09/2014**, God showed me a revolution on what he wanted: Past - Freedom, Present - Love, and Future - Peace. God showed me a quick flash, and I saw everything. I also watched an interesting video sent to me by a friend about how to change the world. The message was how to use the people as a resource to change the world.

On **08/09/2014**, I became oneness and wholeness of the mind, body, and soul due to God and the love of God. That day had many signs from God and a vision of what I would do in the future. I created a power of prayer to save men, women, and children and help God save humanity. I also uploaded a video called 'Perfect Revolution' to show that we can change the world if we work together.

I then spoke with the love of my life, Bumtzz, and she said, "Think before you take action." I knew 'why.' We had an interesting chat about life. The most important message I got on that day was that God would be coming back to earth, then I saw a picture of the Mona Lisa, and it had a message, "Smile - Pass it on."

The more I was seeking and walking the pathless land of truth, the more God was guiding me through messages and signs for me to decode.

09/09/2014 was a special day for me because it was my mother's birthday. I experienced a lot of positive things on that day. I also created a video called "We are God's children" to show people that we belong to God. I saw God's sign when I chatted with my older brother Matthew about life as he stated something about the Mona Lisa picture, which was a bit weird because of my previous visions.

The clearest God's sign I saw was a white woman wearing a veil with a cross on her neck walking in Clapham Common with Jesus Christ. It meant that Jesus Christ was to sacrifice himself to connect with humanity.

On **10/09/2014**, I saw another round of visions from God. First, I saw a symbol of a woman in a veil on the left side of the Mona Lisa Painting and another symbol in the Mona Lisa Picture. The symbol of Chai means life or good luck, and it meant that something might happen in my life, and God was wishing me good luck.

On **11/09/2014**, I got a sign from God as I arrived at an Asda store. A guy shouted at me, saying, "Someone is on a mission." I am not sure how this stranger knew who I was trying to sort out a vital mission to do God's work, but it was weird.

The next sign I got was a woman in Asda holding a bag with the slogan "Freedom Street" printed on it. I am not sure why I saw this message near Battersea, where I lived.

On **12/09/2014**, I released a new song titled 'Work.' It was about working hard toward freedom, love, and peace and motivating people to fight for freedom, love, and peace. I received some more God's signs saying, "Trust in God and let go of all worries." I also saw two white women in the veil at Chelsea.

Then I saw the tree of life and Jesus Christ's cross in Battersea Park. I saw a man wearing a T-Shirt shaped like a heart. I saw all these signs on that day, and it was trying to tell me something was going to happen in my life.

On **03/10/2014**, I told Bumtzz about the miracles in my life. Bumtzz advised me that I needed help and should move out of my flat and stay with my family. I listened to her, and it did save my life because something happened outside of my flat in the early hours of Saturday morning.

At 03.00, something was smashed outside my flat opposite my kitchen window in the middle of the night. It was bizarre and scary because I did hear the noise, but I didn't know what it was.

At around 11.00 in the afternoon on that same day, some children came toward me saying, "Chris, something happened outside. What is going on?" I saw my neighbour, the same person I argued with a week before. He

said, "I put two glass windows outside your flat."

I replied, "Okay, what has it got to do with me?" My neighbour said, "Someone is trying to target you." I then asked, "Why is someone trying to target me? What have I done wrong?"

My neighbour refused to answer and instead asked, "How is the music going? Are you working on any new music?" and further said, "Jealousy and envy, as a successful musician like yourself, could make a hater want to kill someone like you."

It was terrifying as I didn't understand why he said those words to me. My neighbour then continued, "Next will be your kitchen window." I went inside my flat and started panicking. I knew something was odd about his behaviour, and I couldn't trust him.

I went into my flat and started connecting the dots about the visions and God's signs I had experienced and received. I realised something spiritual would happen to me that was beyond the physical. I realised the only person who knocked on my flat regularly was my neighbour asking questions about life, and it appeared he was obsessed with me. The neighbour was always envious of me as if we were in some competition, plus he knew my movements.

Between **08/09/2014** to **13/09/2014**, I heard weird noises with a powerful sound in the middle of the night around 03.00. The noise was unusual, and I didn't understand it.

After connecting the dots, I realised my neighbour had something to do with it.

God showed me this neighbour was my spiritual enemy in reality and the flesh, but I didn't understand at first.

This neighbour was an enemy who lived in the same block of flats upstairs where I lived. If I had not repented and given my life to God, I could not have been able to see the enemy in the flesh.

My neighbour was slick, calm, and charming. You could feel the energy and ego of his character from a mile away, which got me confused because he would be charming, but he had evil intentions.

This neighbour was dark and was like a stalker who kept knocking on my doors, asking me questions about my life and music. It was weird behaviour. I believed this neighbour was jealous of my success as an independent musician who had a successful music business. This neighbour didn't want me to succeed in the music industry and was jealous that I had many followers and people listening to my music.

On **14/09/2014**, I moved into my mother's house to stay safe and be with my family for protection because weird things were happening in the Battersea area near my flat. I reported my neighbour to the police as he had become a threat to my life.

I reported the threat to the police, council, and landlord. It was challenging to deal with

people who could not understand the truth and push the fact away.

On **15/09/2014**, I spoke to many people and asked what they thought of the threat. No one believed me, and only God knows the truth.

I talked to a woman in the Battersea field's organisation and gave a full report in person. I even had facts and proof of evidence to present, and everyone thought I was lying.

On **16/09/2014**, I visited my grandmother and told her about the transformation I experienced in becoming a faithful Christian and that I have devoted my life to God. My grandmother had the most real spiritual vision of me directly from God.

She said God would save me. That was the best vision that someone had told me from their experiences of being a server of God. I also told her about the visions and purpose I had received recently.

She agreed and said, "Yes! God has a plan for you, and you must stay strong and keep following God". This vision that my grandmother had of me, only God could have given her.

I never talked to my grandmother about my personal life, and I never saw her regularly due to different family problems. She knew I had changed spiritually and connected to God.

I also learned that some of my family members belong to a secret society, which was terrible. That showed me that there are good

and bad things in the world, and even family members are not perfect.

On **17/09/2014**, after the message my grandmother gave me, I started studying and began the real journey of the No Self. I learned about DMT, a spiritual awakening of the mind, body, and soul. My spirit changed from 'Self' to God.

On **18/09/2014**, I had a sign that God was on the way to earth and also found out the true meaning of the symbol I saw weeks before. What I didn't understand was why I needed good luck.

On **19/09/2014**, the day was full of sunshine and rain from God. I had to go for a job interview in Woodgreen and also received a lot of signs from God. I met a Pastor, a white man, mighty and spiritual, who was evangelising on the streets of Woodgreen. This Pastor was righteous in the Lord and believed in God. He was preaching powerfully about God and Jesus Christ to many people in Woodgreen.

The Pastor was preaching that we all need salvation through Jesus Christ and God, and he said to me, "you will be doing this one day." The Pastor gave me lots of books on God and told me the address of his church.

There was a live argument about religion in the crowd as people watched this pastor. Some people were believers of Jesus Christ and God, and some were unbelievers who didn't believe. The argument became emotional, with lots of

people getting involved on the streets of Woodgreen.

Before I left, the Pastor told me to read all of these scriptures:

- Roman 6.23

“For the wages of sin is death, but the gift of God is eternal life in[a] Christ Jesus our Lord.”

- John 8.12

“When Jesus spoke again to the people, he said, “I am the light of the world. Whoever follows me will never walk in darkness, but will have the light of life.”

- Corinthians 15.3

“For what I received, I passed on to you as of first importance[a]: that Christ died for our sins according to the Scriptures, for that he was buried, that he was raised on the third day according to the Scriptures.”

- John 14.6

“Jesus answered, “I am the way and the truth and the life. No one comes to the Father except through me.”

On **27/09/2014**, I had a tough day because I had no money, electricity, gas, or food. I believe this was the challenge of fasting, but how long can I endure this suffering.

On **28/09/2014**, the suffering continued and got even worst. I had no money or food and was unable to live well. I also had an argument with my twin brother Alex and with Bumtzz over my life struggles.

On **29/09/2014**, this was the most horrible day ever. I struggled so hard and still didn't have any food, money, electricity, or gas. I managed to survive only by God's grace.

On **30/09/2014**, a miracle happened, and I realised God indeed does exist in my life.

I sent a message to Bumtzz saying sorry about my part in the argument. I went back to my flat because I couldn't stay at my mother's house any longer after my family forced me to move back to my flat, even though I had told them that something would happen to me. But no one believed me, and they thought I was lying.

The Miracle

In the night time, I was in my flat creating two music videos, 'Brightness' and 'The lightness' of the universe. I was working on the final 'Brightness' music video when death and hell became a reality.

It was dramatic and something beyond everyday occurrence. Before I get into what happened, I have to say God showed me lots of signs, messages, and hints about my future. Before it happened, people would warn me to stay away from the Battersea area, and there were lots of deaths occurring in this area due to evil forces.

Most of the things I experienced in this book led me to a life-changing moment in my life.

Back to the miracle, I had my Holy Bible, cross, laptop, and mobile phone on my bed. I

usually burn incense and candles because I am a very spiritual person and have been doing this for many years. It helped me to relax and pray to God.

As I went to the kitchen to get a drink of water, I looked into the corridor and saw death and hell looking at me directly. It was the darkest force I have ever seen, and I couldn't see anything but darkness. It was so dark that I felt horrible and traumatised immediately.

I saw fire, a dark red flame of hot flames, scorching and powerful. The whole flat was pitch black with no energy, no lights, just pure darkest in all of the rooms.

That was a real test of will and faith because I was completely trapped, and the doors were locked. There was no way out of the fire and flames of hell and death, and I had no choice but to look for a way out. Suddenly, I saw my kitchen windows and climbed out to escape the fire.

Only God knows how I managed to get out of the flat because if the kitchen window weren't opened, I could have died.

It is a miracle that I managed to get out of my flat in time because the flames were everywhere.

Do you remember my grandmother's vision of me, "God will save your life," on 16/10/2014? God saved my life that day, and it was a miracle that I can now share this in my book and testimony.

That was a true story that happened. I am now spreading the message of God and Jesus Christ to the world and hopefully through this book.

Conclusion

This 'Miracle' book's moral value, principles, and purpose show that God exists, God is alive, God is the truth, God is real, God is righteous, God is freedom, love, and peace, and God will save us. We all can become closer to God by repentance and serving God.

I gave my life to God and repented for my sins, and God saved me. I have devoted my life to God and Jesus Christ entirely because of what He did for me on that fire accident day and for all the miracles He showed in my life.

God is completely righteous, and He loves us deeply with kindness, care, compassion, empathy, and mercy. To find God, you must first repent your sins, ask God for forgiveness, and then change your life by serving God.

God is love, and love is God. Loving God is the key to opening up your heart to living a righteous life.

I have changed my life because God had the mercy and grace to save me from the fire. I am so grateful to God and Jesus Christ for what they have done for me.

My work in life is a complete devotion to God and Jesus Christ for helping me and saving me.

I hope this book of miracles has served you, and I hope you find your faith in God and Jesus Christ.

Thank You for reading.

Christopher Rose.

Miracles Are
True

God is Love –
Love is God

Truth is a
Pathless Land

Jesus Christ
and God!
